

Released seismic data offshore West Greenland available from GEUS

Released modern seismic data of West Greenland available from GEUS

The following seismic surveys from the area off West Greenland have been released and are available from GEUS.

BGR1977 (<i>reprocessed</i>)	<i>approx.</i> 2900 km
HGS1990	1924 km
NUNA1994	1724 km
Statoil surveys 1997, 1999 and 2000	3476 km
Statoil site survey	358 km
Phillips Petroleum surveys 1998, 1999 and 2000	3001 km
GEUS2000G	2784 km

Prices

The price for individual lines is DKK 130 per km. Complete surveys are available for DKK 65 per km, except for BGR1977 and GEUS2000G which are available for the cost of copying.

Deliverables

- Digital data: final migration data in SEG-Y format, stacking velocities, navigation data and Landmark SeisWorks files (as loaded on GEUS's Landmark workstation) on Exabyte tapes
- Processing report (if available)
- Field data in SEG-Y format on request

Conditions

Contact GEUS, att. Christian Marcussen (e-mail: cma@geus.dk) for further information.

Further information

The seismic data can be inspected at GEUS's office in Copenhagen on a Landmark workstation. GEUS can also give presentations of the geology offshore West Greenland either at GEUS's Copenhagen offices or at companies' own offices. For all presentations, appointments should be made in advance (contact GEUS, att. Christian Marcussen (e-mail: cma@geus.dk)).
